

Carer Connect

TEACHaR's free-to-access, online support community for carers schooling young people and children at home.

While physically distancing, Victorians schooling children at home need - more than ever - to connect with others in the same situation. That's why AV is building a new online education community for our carers.

We are offering carers with children and young people in their care exclusive access to an online network of fellow carers and teachers. We welcome you to share your experience of keeping young people and children happy, healthy and engaged with learning while living under COVID-19 restrictions

- The sessions are free to join and encourage questions and sharing.
- Guidance will be offered around approaches to home education.
- For your convenience, each week there will be three sessions available.
- Carers will be able to join an online video group using a virtual timetable and booking system.

To find out more about Carer Connect, contact us at TEACHaR@anglicarevic.org.au.

Please note: Carer Connect sessions are only for those with a child/young person living in their care.

EXTRA HELP

Flexible Learning Online with Anglicare Teachers

As well as our online Carer Connect community, TEACHaR can provide further education support for your young people at home. Contact us to find out about more online resources and education support options.
